# Trimble Inc.

Position

Information

Communication

## Transforming the Way the World Works

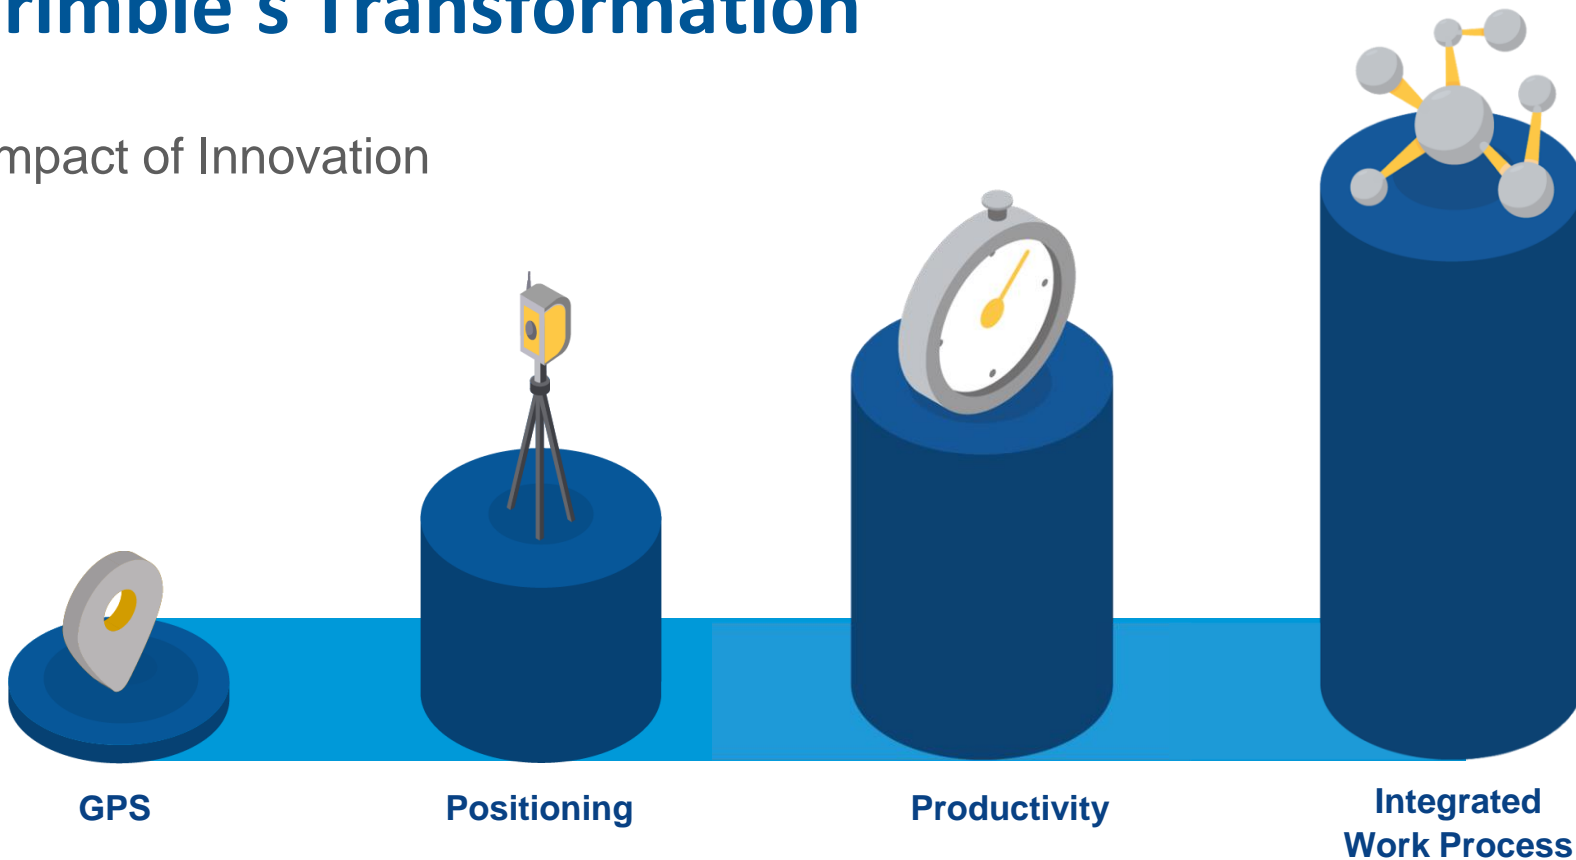

At Trimble, we have been in the business of crafting confidence for customers for over 40 years.

Founded on the core principles of triangulation, we stand for: Position, Information and Communication.

Where all points unite, you'll find Trimble -with innovation and technology for the future.

# Trimble's Transformation

Impact of Innovation

# Trimble Snapshot

## Company

NASDAQ:  
**TRMB**

**\$3.13B**  
Revenue (2018 year end)

**34%+**  
Building & Infrastructure

## Innovation

**1,200+**  
Unique Patents

**360** Construction Workflow  
& Technology Patents

**14%**  
R&D re-invested

## People

**11,000+** Employees  
in 35 Countries

**800+** Construction  
Professionals

Global Customers  
in **150** countries

# Core Business Franchises

Our core industries are global trillion \$ industries which operate in demanding environments, with technology adoption in the early phases

Agriculture

Buildings

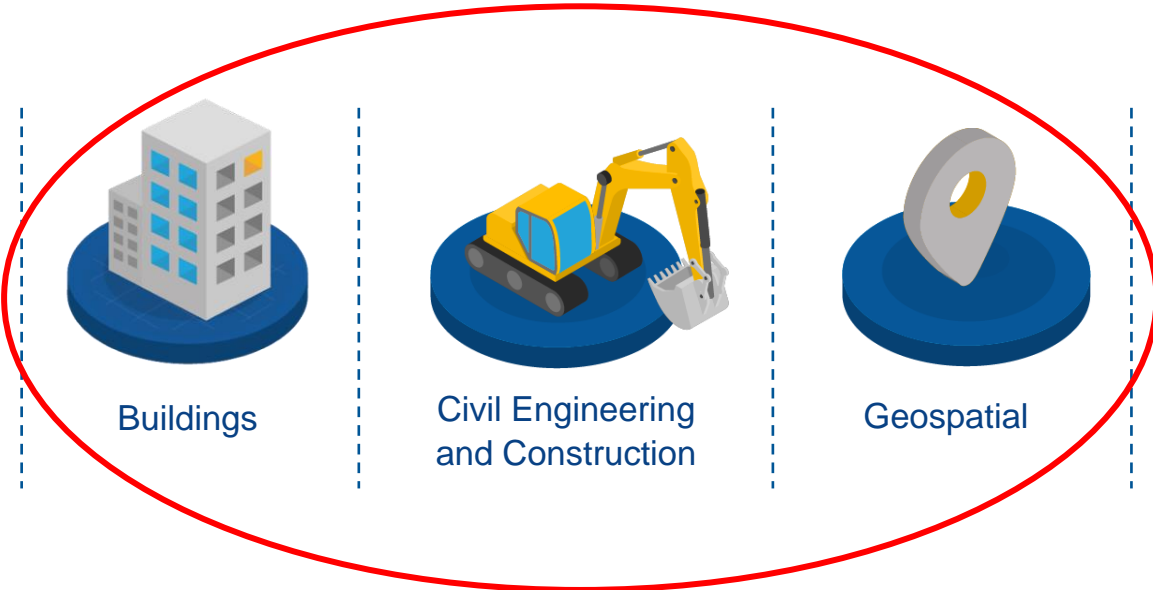

Civil Engineering  
and Construction

Geospatial

Transportation  
and Logistics

# Today, Trimble Is Pervasive

Positively Impacting Productivity, Quality, Safety & Sustainability

## Geospatial

- **>70%** of POB<sup>1</sup> top 100 geospatial companies use Trimble
- **>10,000** surveyor and mapping firms in N.America are Trimble customers
- Joint ventures with Nikon, Russian space agency, Chinese rail authority

## Construction

- **>28 million** unique SketchUp activations / year
- Manage **≈30M** models and components
- **>1M** users of Trimble Connect
- **>2B** square feet of real estate leases managed
- JVs with Caterpillar and Hilti
- Multiple OEM relationships for machine control technologies

## Agriculture

- **≈150M** acres using Trimble technology
- **≈335,000** Trimble displays in the field
- **>90,000** customers subscribing to Trimble correction services for high precision GNSS

## Transportation

- Trimble technology on **>85%** of top 200 trucking companies in USA
- **>1 million** assets managed directly with Trimble technology on board
- **>2 million** assets managed with Trimble solutions (on board and off board)

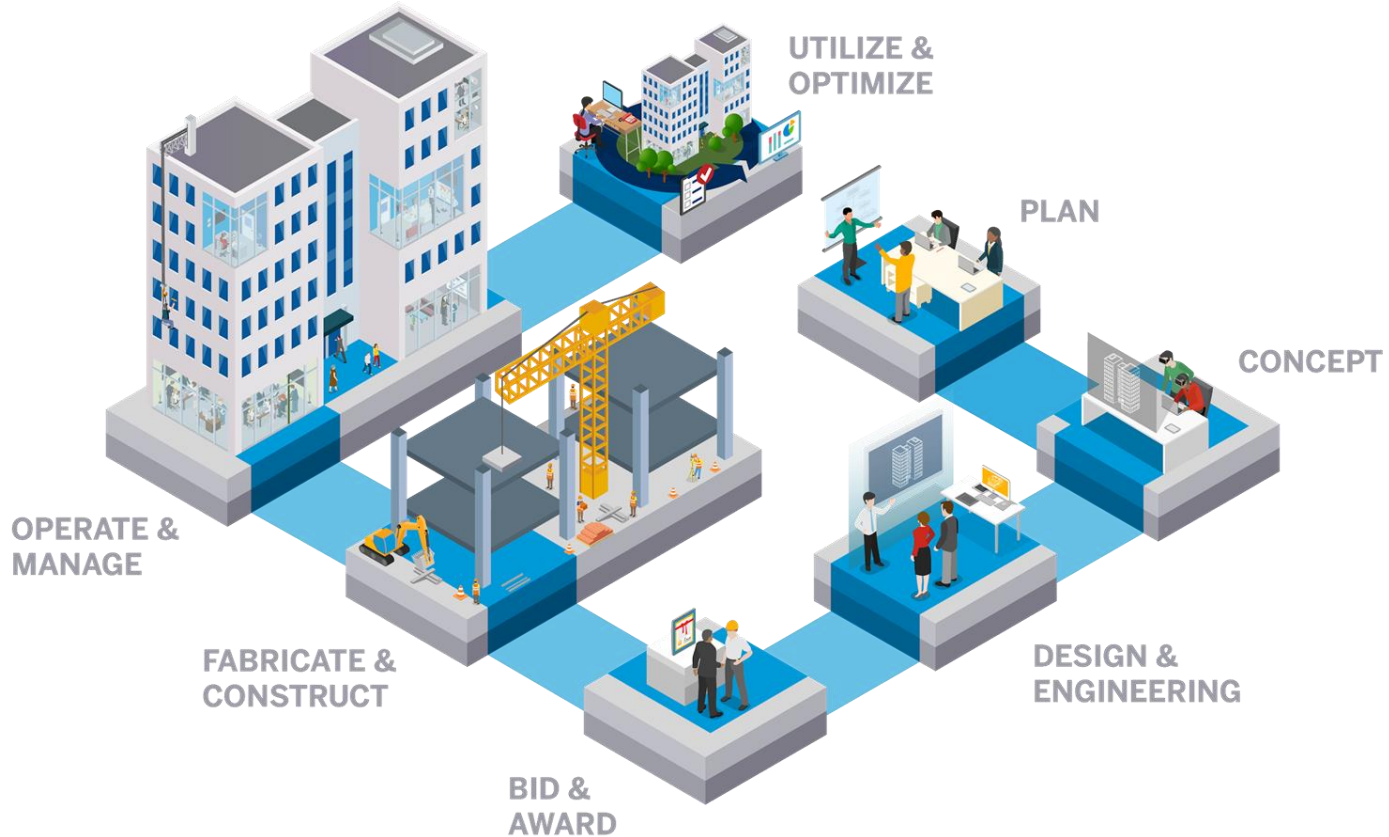

# Support Every Phase of Construction

Providing Solutions across entire project lifecycle

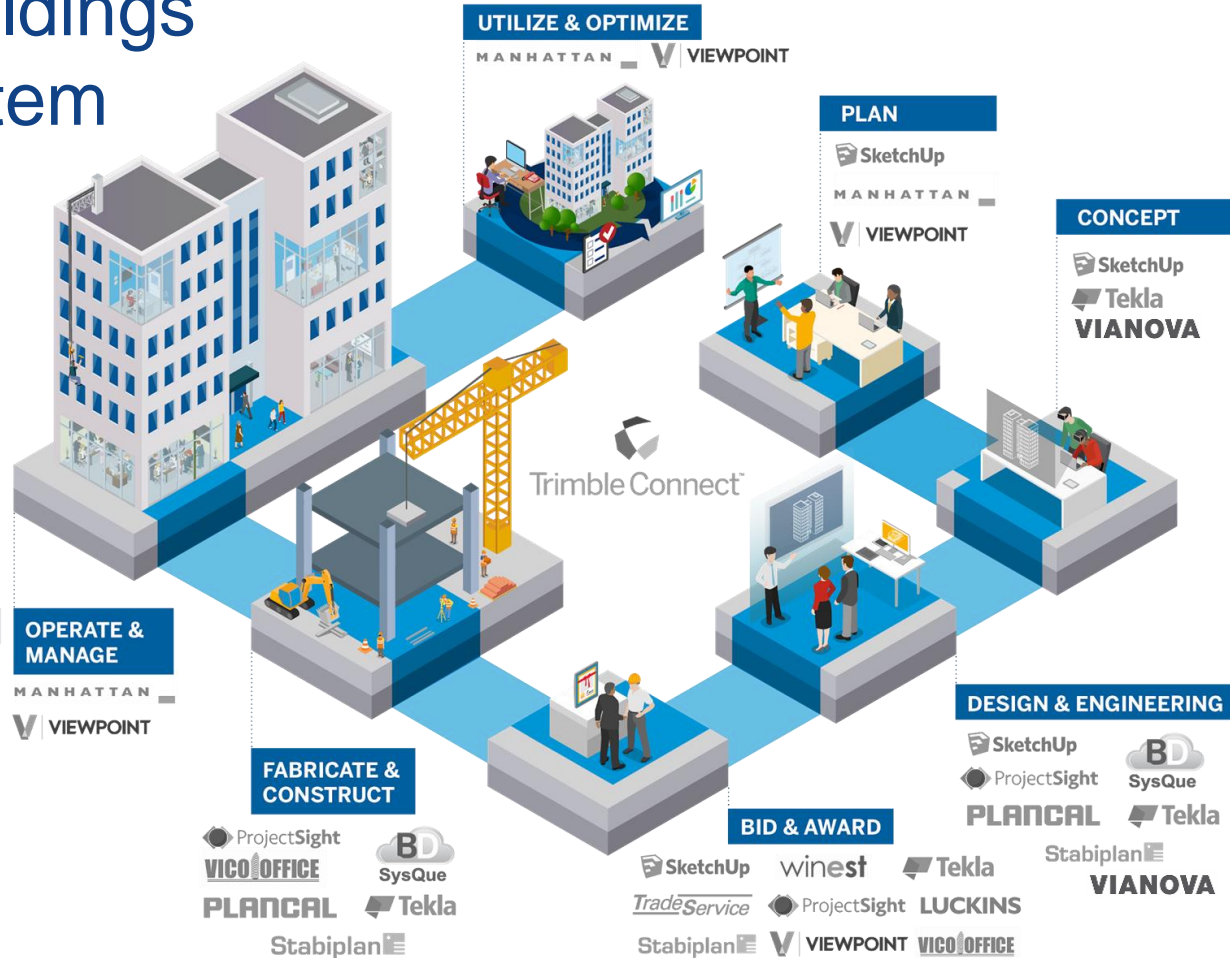

# Supporting Every Lifecycle Phase

# The Buildings Ecosystem

# Geospatial Precision Data as Foundation

Surveyors are enabling faster and smarter building, farming and transporting

Digital data and workflows support the entire lifecycle

- Survey
- Pre-construction
- Site layout
- Post-construction

# Trimble Sync Manager

## Connecting Survey Field and Office

The screenshot shows the main interface of Trimble Sync Manager. At the top, there is a 'Select Project' section with a 'New' button, a 'Region' dropdown set to 'Europe', a search bar, and a 'Sort by Last Visited' option. Below this is a list of jobs. One job is highlighted: '13-09-2018 Christchurch NZ' with a timestamp of '1:55 PM'. A dropdown menu is open over the job, showing status options: 'New' (selected), 'New', 'In progress', and 'Field work complete'. At the bottom, there is a navigation bar with buttons for 'Back', 'Copy', 'Import', 'Export', 'Properties', and 'Open'. A small image of a survey site is visible at the bottom left.

The screenshot shows the 'Create a Job' dialog box in Trimble Sync Manager. The 'Project' is set to 'Trimble Sync Manager'. The 'Job name' is '13-09-2018', the 'Reference number' is 'Field to finish with confidence', and the 'Description' is empty. The 'Assignees' field has a search bar and a plus icon. Below these fields are two sections: 'Job files' and 'Project files'. 'Job files' contains one file: 'old stone hous...' (94.0 KB). 'Project files' contains four files: 'OldStoneCottage.jgw' (~1 KB), 'OldStoneCottage...' (437.3 KB), 'OSHFeatures.fxl' (173.1 KB), and 'nz2016.ggf' (15.1 MB). Below the files are sections for 'Units' (Metric, Distance and grid: Meters), 'Coordinate System' (Projection: Mount Pleasant 2000, Datum: New Zealand Geodetic 2000, Geoid: New Zealand Geoid 2016), 'Cogo' (Ellipsoid), 'Other', and 'Job points (162 points)'. At the bottom, there is a 'Saving job...' progress bar and 'Create' and 'Cancel' buttons.
